David Wayne Lawrence

Keyboard / Piano / Gospel Music/ Praise & Worship Music

David Lawrence is a graduate of the highly accredited Oral Robert's University with a degree in Music, Theology, and minor in Psychology. David's postgraduate studies include Business Management, Leadership Development, Audio and Video Recording, from Georgia State University, Jersey City State College, the International Worship Institute and Recording Institute of America. His unique and practical approach to teaching keyboard is productively developing a legacy of *changing the way the world learns music*.

For over 25 years, David has been professionally conducting piano workshops and seminars throughout the United States, Canada, South America, the Caribbean, Southeast Asia, and England. During that period, he has fashioned a method that has enabled thousands to play the piano in a short time. Due to its rapid results, his inspirational teaching style ignites passion and creates vision in students. While he does not oppose the traditional method of reading and writing music, David strongly believes that *"while it is natural to learn to speak before you learn to read and write, so it is a more natural process to learn to play by ear before you learn to read and write music!"* In an effort to help people who desire to learn to play quickly for personal pleasure, church work, songwriting, etc., he developed the ***Rapid Piano Learning System***, so that highly motivated students can successfully fulfill their dream through a cost-effective and time-efficient method. His many HOME-STUDY COURSES can be seen at his website – www.piano-by-ear.com . Though there are no short cuts to success, David's practical and efficient approach has been proven effective without compromising the quality and integrity of the art.

This unique system makes learning to play the piano simple, fun and exciting. It will save you thousands of dollars and countless hours of practice. In a short period of time you will clearly understand chords, rhythm and keys to accompany others as they sing.
